

IPL Franchise Value Creation Drivers

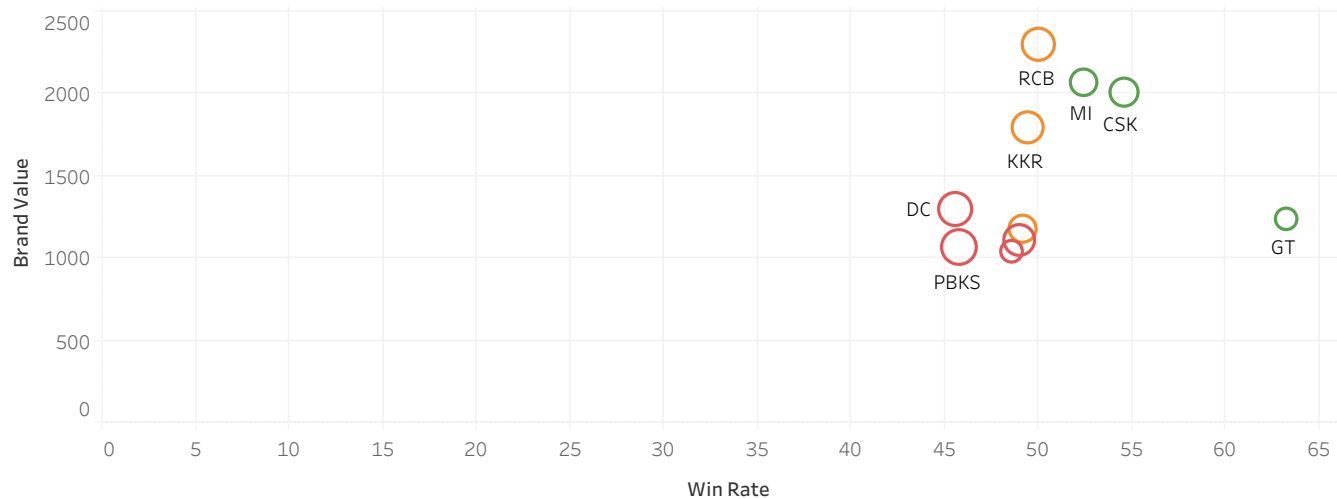

Analyzing how performance, capital efficiency and brand strength influence franchise valuation.

Research Question

What factors contribute most to long-term franchise value creation in the IPL ecosystem?

Does Winning Create Franchise Value?

Winning Performance vs Franchise Valuation

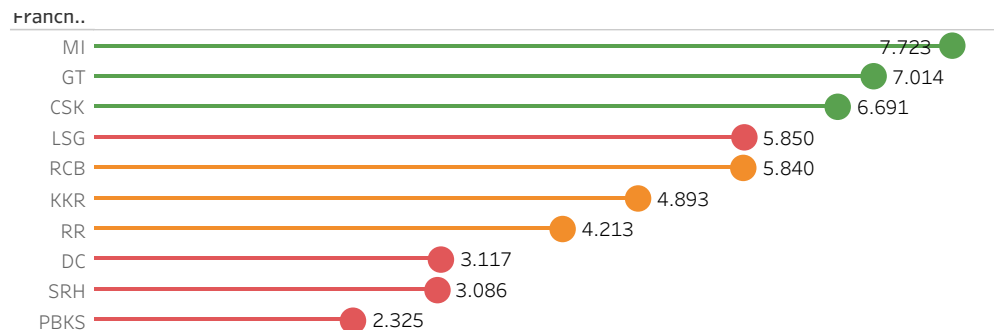

PBKS
Lowest Value Creation Efficiency
₹2.33 Brand Value
per ₹1 Cr Spent

GT
Highest win rate (63.2%)
but not highest valuation.

RCB
Highest valuation despite a
lower historical win rate.

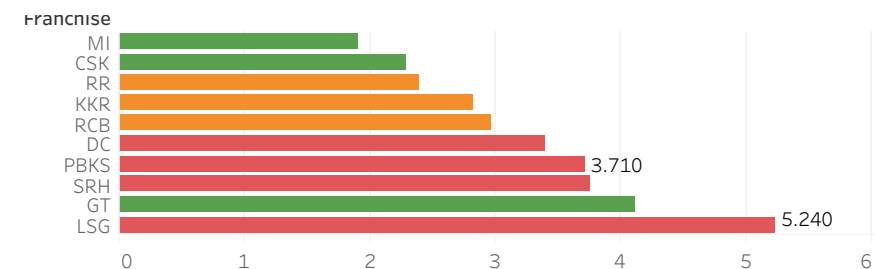

MI
Strongest balance of performance,
efficiency and brand value

Value Creation Efficiency: Brand value generated per ₹1 Cr spent

Capital Efficiency Rankings

Which franchises convert spending into victories most efficiently?

ANALYST COMMENTARY

Franchise value is driven by three core factors: competitive performance, capital efficiency and brand strength. While winning increases long-term commercial value, the relationship is not perfectly linear. RCB demonstrates that strong fan engagement and commercial appeal can create substantial franchise value beyond sporting performance alone. The strongest IPL franchises consistently convert investment into both on-field success and sustainable brand growth.
